

EDI WORK

HOW EDI WORKS?

BENEFITS OF EDI

- 
REDUCED PAPERWORK
 Reduces usage of papers to a naught as transactions are conducted electronically, is much more efficient and quicker.
- 
REDUCED COSTS
 Reduces costs that go into procuring tons of paper, printing them into various forms, storing and filing them, posting them to stakeholders, human efforts and costs that go into maintaining them.
- 
SPEED OF BUSINESS
 Speeds up manufacturing lifecycle by over 60% as it automates business processes and transactions.
- 
INCREASED DATA ACCURACY
 Eliminates manual keying of information at every transaction stage. Electronic transaction format reduces typo errors, mis-information due to bad handwriting, missing documents etc.
- 
SECURE
 Transactions are secure as entire system is protected by high security compliance standards and communications protocols.
